Dear Mr. Daniels:

Thank you for your recent letter and the copies of your web site pages regarding the Image Awards. Please know that this office understands your concerns.

It was obvious that the character making the remarks was ignorant and wrongheaded, by virtue of the objections of other characters. The NAACP has and always will hold Ms. Parks and her great act of conscience in the highest regard.

Thank you again for sharing your perspective. Your ability to do so is one the many civil rights that the NAACP has worked to secure - for all Americans.

With best wishes for the future and warm personal regards, I am,

Sincerely,

Kweisi Mfume  
President and CEO
